

32 South Main Street, Middleborough, MA 02346 Phone: (508) 947-1371 Fax: (508) 946-3700

Dear Customer:

We are in the process of updating our Emergency Medical Equipment Notification List. If you or someone use a life support system that requires electrical service, please contact us.

We make every effort to contact customers on the Emergency Medical Equipment Notification List in the event of a scheduled power outage or upcoming storm. However, we have no control over unplanned or unscheduled outages and therefore are unable to accurately provide you with advanced-notice of such outages.

In the event of an unplanned outage, our goal is to restore power to all customers as safely and quickly as possible. However, **we cannot provide you with priority relative to restoration of services**. Therefore, you should **identify one or two possible alternate locations** that may have power where you can go during an outage. Also, please check back-up batteries and oxygen supplies.

To be added to the Emergency Medical Equipment Notification List, you must **include information on any battery backup available and its expected endurance**.

Please call Middleborough Gas & Electric between 8:30 and 5 Monday to Friday at (508) 947-1371 with all required information.
